

Global Supply Chain Risk — Executive Overview

Total Shipments
5K

Disruption Rate
61.3%

Avg Risk Exposure Score
50.4

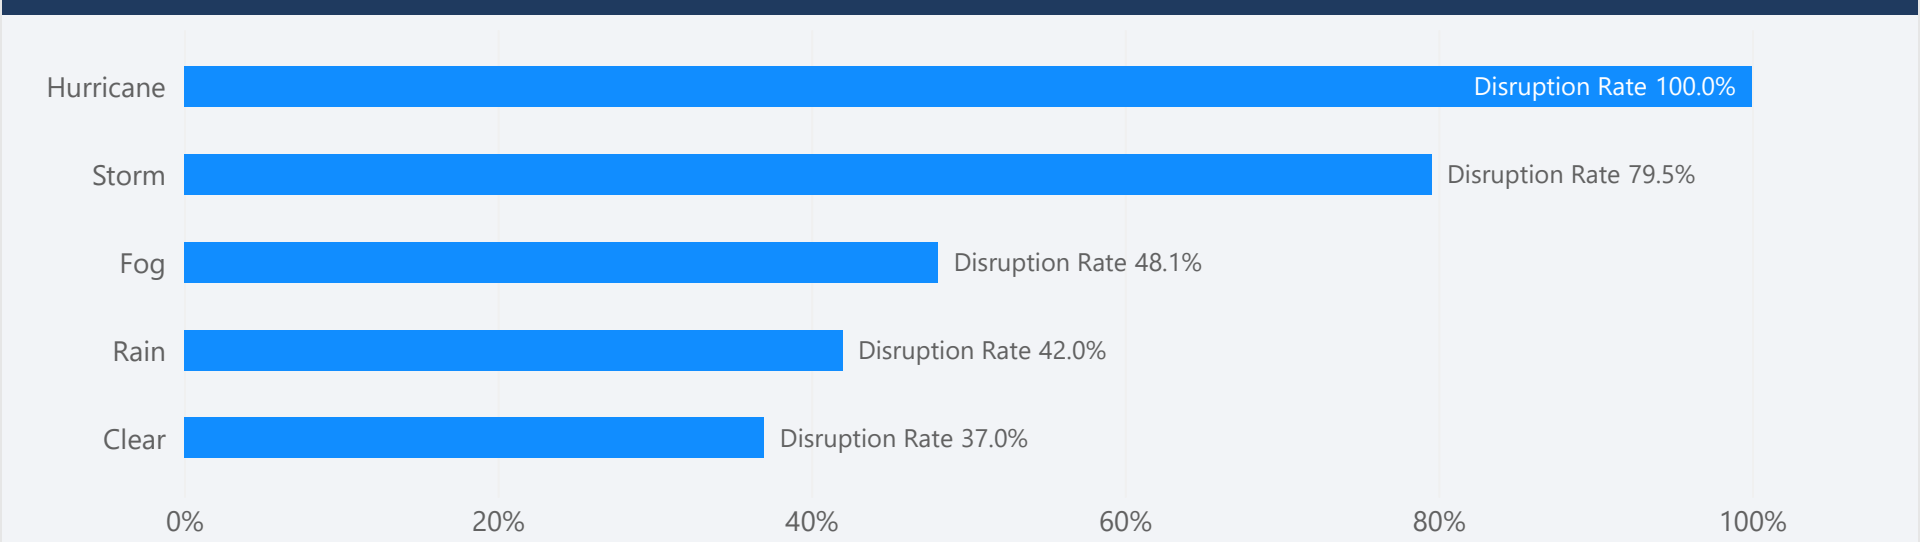

Avg Lead Time (Days)
19.4

High Risk Shipments
2K

Disruption rate stayed high through 2024–2025

Hurricanes disrupt 100% of shipments; storms 80%

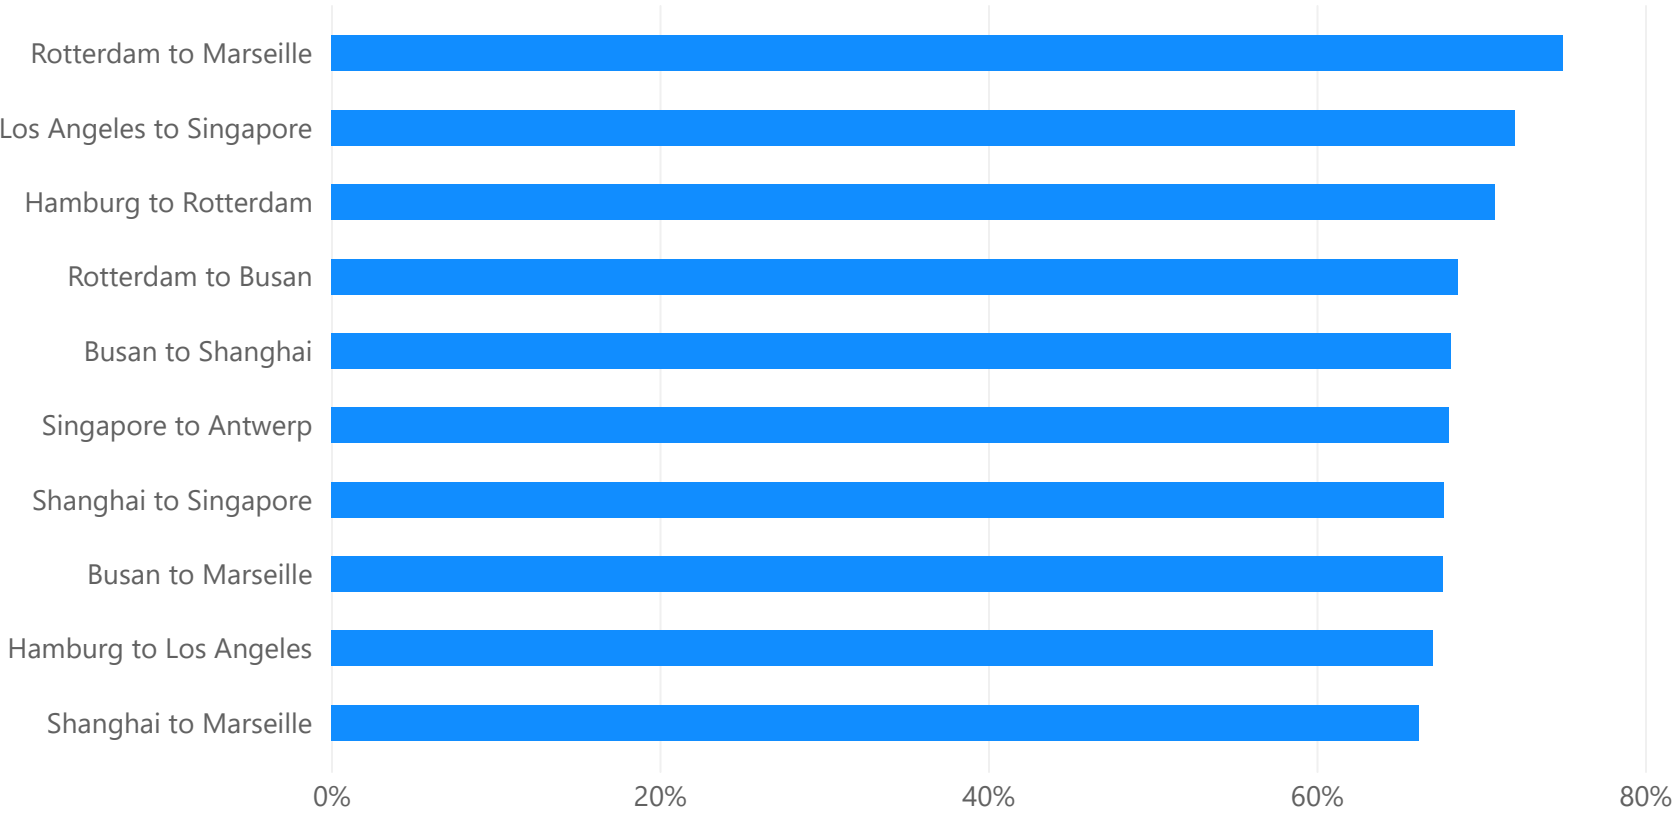

Transport mode barely matters (61.0%–61.7%)

Route heatmap: disruption rate by origin and destination

Origin_Port	Antwerp	Busan	Dubai	Hamburg	Los Angeles	Marseille	Rotterdam	Shanghai	Singapore	Total
Antwerp		58.4%	60.0%	62.9%	63.2%	63.8%	55.7%	66.2%	64.6%	61.4%
